MADE FOR YOU BY YOU

Highlight your personality through immense personalisation. From debossed logos to hand-painted and screen-printed initials, you have many options. We include you in every step of the process, from design recommendation to selection of colour, font and letter of your monogram.

MAKE YOUR OWN BRANDING

Choose from a variety of branding techniques: embossing, debossing, laser etching, hand-painting, screen-printing and UV-printing, and make your gift stand out. Select from an array of beautiful fonts that includes serif, sans serif and block letter and stamp your identity on our elegant leather products with debossing. Else, select any color of the rainbow or any combination thereof, we will artistically hand-paint or screen-print it for you.

DOUBLE BOX GIFT SET EMBOSSED LIZARD IMPRINT

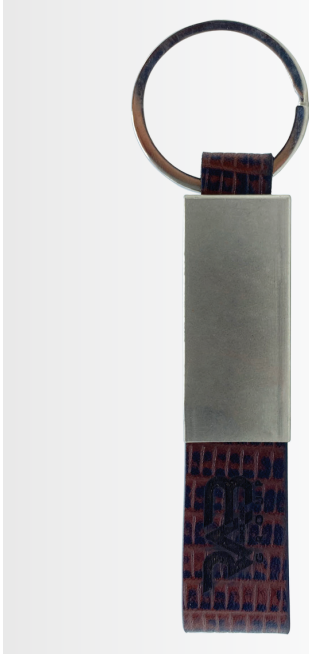

luxury redefined

Developed on top grain leather embossed with lizard imprint and packed within fine quality PVC boxes, this 2-box gift set was capable of delivering the appreciation worthy of our client, RAB Group. They are one of the country's leading shipping and berthing companies.

This gifting decision has provided the client several benefits. First of all, being composed of two separate gift boxes and eight different gift items, it delivered extra premium gifting experience. Secondly, if necessary, the client could convert it into two separate gifts for two separate parties. Thirdly, the combination catered for the needs of both genders - meaning, both the recipient and their partner could carry the client's memory along with them.

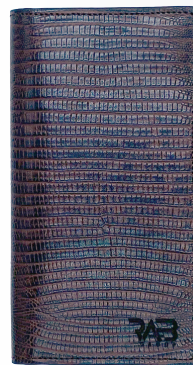

DOUBLE BOX GIFT SET
WINE RED TAN WITH DARK GRADIENT

extra class with classics

Developed on top grain leather with wine red tan and dark gradient, this classic beauty is particularly popular with our cliets in armed forces and civil defense.

Just like the 2-box gift set shown earlier, this too has provided the client several benefits. Being composed of two separate gift boxes and seven different gift items, it delivered extra premium gifting experience. If necessary, the client could convert it into two separate gifts for two separate parties, thereby providing certain economic discretion to the client. Besides, the inclusion of a journal makes it more suitable for clients who are likely to use one for their everyday note-taking - adding more gavitous to the memento.
